MOSCOW IN WINTER.

The streets of Moscow are somewhat dangerous for foot passengers in the Winter, as the sledge of course makes no noise, and some of the horses trot very fast. There is no regulation of pace, though as at St. Petersburg the only persons who have the right of fast driving are the Emperor and the General Governor. The coachmen, however, are excellent drivers, and accidents do not occur so frequently as one might expect from the number of sledges and the violence of the pace. I think that, on the whole, Moscow looks its best in the Winter, and a drive in a sledge is delightful when one is wrapped up. By driving to the outskirts, one can obtain an exceedingly picturesque view; and the towers and minarets are very much improved by having their lines and angles flecked with snow. At first one feels rather at the mercy of the horse in a small sledge, as there are no kicking straps, and the horses' heels are unpleasantly near, but Russian horses seldom kick when driven. The horses of Moscow have a pitiable existence enough in Winter, working, as they do, with little rest from 4 to 5 o'clock in the morning until after midnight, and ill-fed and ill-treated in weather when the thermometer is always below zero (Fahrenheit). One sees them trotting along patiently with their coats thickly covered with frost and frozen perspiration, and with all the froth of their nostrils frozen into solid lumps. I have often felt far more pity for those wretched animals than for the coachmen, who are at least warmly covered, and can get warm food and drink. Sometimes, however, the coachmen have hard times of it, especially when waiting at the theaters from 7 o'clock till half-past 11. Instances have occurred of coachmen having been frozen to death on their seats while awaiting the appearance of their patrons from inside the theaters.

THE IDEAL SMOKER.—'Tis delight to watch him. Lazily leaning back in his chair with his feet on the table, he gently draws into his system the fragrant aromatic smoke, and removing his cigar carefully from his mouth, least the white ashes should fall, he blows into the air a succession of vaporous circles, watches them float for a second, expand and break into ethereal blue. He sees in them bright visions, satisfying day dreams, and he again inhales from his brown Havana the gentle narcotic that soothes his nerves and gives him unbounded rest from business cares. If we could be sure of enjoying a cigar as this man does, we'd learn to smoke before night, if it laid us on a bed of sickness for a week.—New Haven *Register*.

Zincke, in his entertaining and suggestive books on Egypt, tells the following anecdote to illustrate the sort of knowledge which he says, the uneducated classes often have: Shortly after my return from Egypt I had the following conversation with one I knew to be a good specimen of that class—an honest, conscientious, religious soul: "They tell, me sir, you have been a long way off." "Yes, neighbor, I have been to Jerusalem." I thought Jerusalem might touch a chord, but was not sure that Egypt would. "What! Jerusalem, sir?" with great surprise.

THE Tremont House, Boston's oldest hotel, has just celebrated its semi-centennial, having been first opened to the public in 1829. The corner-stone was laid July 4, 1828, with much ceremony, and, though now considered rather old-fashioned and gloomy, such an elegant hotel the country had not then seen. When first opened for inspection, 20,000 persons thronged its parlors for three days.

The royal astronomer at Greenwich, England, has figured up the transit of Venus calculations handed in by the English observers, and makes out the distance from the sun to the earth to be 'Yes; Jerusalem." "Now, sir, you have surprised me. I did not know that there was such a place as Jerusalem in the world. I had always thought that Jerusalem was only a Bible word."

Prince Bismarck among the living, and the Duke of Wellington among the dead, are said to have had more orders and decorations than any others in the world. The latter rarely wore any save the garter, and it was observed, when he lent a famous decoration for some private theatricals at Lady Salisbury's, years after it was conferred, that the case had never even been opened.

"Never kiss a girl if she doesn't want you to," says an article on the "Art of Kissing." But pretty often when a girl says she doesn't want you to kiss her is the very time she does want you to, and you'd better take the benefit of the doubt.

Prof. Nordenskjold thinks that a voyage along the northern coast of Siberia, from the Atlantic to the Pacific, might often be made by a steamer specially fitted out and manned by an experienced crew, and that such a voyage would occupy only a few weeks.

A Michigan journal says: "In this State etiquette permits a bride to be married without gloves, because that's the way she handles the groom after marriage."

HOW TO BECOME RICH.

You can probably be rich, my son, if you will be. If you will make up your mind now that you will be a rich man, and stick to it, there is very little doubt that you will be very wealthy, tolerably mean, loved a little, hated a great deal, have a big funeral, be blessed by the relatives to whom you leave the most, reviled by those to whom you leave nothing. But you must pay for it, my son. Wealth is an expensive thing. It costs all it is worth. If you want to be worth a million dollars, it will cost you just a million dollars to get it. Broken friendships, intellectual starvation, deprivation of generous impulses, the smothering of manly aspirations, a limited wardrobe and a scanty table, a lonely home because you fear a lovely wife and beautiful home would be expensive, a hatred of the heathen, a dread of the contribution box, a haunted fear of the Woman's Aid Society, a fretful dislike of poor people because they won't keep their misery out of your sight, a little sham benevolence that is worse than none; oh, you can be rich, you man, if you are willing to pay the price. Any man can get rich who doesn't think it is too expensive. True, you may be rich and be a man among men, noble and Christian and grand and true, serving God and blessing humanity, but that will be in spite of your wealth and not as a result of it. It will be because you always were that kind of a man. But if you want to be rich merely to be rich, if that is the breadth and height of your ambition, you can be rich, if you will pay the price. And when you are rich, son, call around at this office and pay for this advice. We will let the interest compound from this date.—*Hawkeye*.

THE MEN WHO WERE NOT HANGED.—"I got famously taken in on that occasion," said the Duke. "The troops had taken to plundering a good deal. It was necessary to stop it, and I issued an order announcing that the first man taken in the act should be hanged upon the spot. One day, just as we were sitting down to dinner, three men were brought to the door of the tent by the *prevot*. The case against them was clear, and I had nothing for it but to desire that they should be taken away and hanged in some place where they might be seen by the whole column in its march next day. I had a good many guests with me on that occasion, and among the rest, I think, Lord Nugent. They seemed dreadfully shocked, and could not eat their dinner. I didn't like it much myself, but, as I told them, I had no time to indulge my feelings; I must do my duty. Well, the dinner went off rather gravely; and the next morning, sure enough, three men in uniform were seen hanging from the branches of a tree close to the high road. It was a terrible example, and produced the desired effect; there was no more plundering; when some months afterward, I learned that one of my staff took counsel with Dr. Hume, and as three men had just died in the hospital they hung them up, and let the three culprits return to their regiment." "Weren't you very angry, Duke?" "Well, I suppose I was at first, but as I had no wish to take the poor fellows lives, and only wanted the example, and as the example had the desired effect, my anger soon died out, and I confess to you that I am very glad now that the three lives were spared."—*Life of Wellington*.

A most interesting Masonic relic was sold in Toronto the other day—the Masonic certificate of Souter Johnny of Burns' "Tam O Shanter." It was issued by St. James' Lodge, Ayr, in 1790; and pinned to one corner was what was said to be a lock of Highland Mary's hair. The curiosity brought $178.

The idea has been conceived of establishing public warming rooms in the different quarters of Paris, where poor homeless folks will be admitted and given a bowl of soup without any preliminary questioning. Two or three are already open.

93,375,000 miles. The figuring from France and America has yet to appear, and it is thought that it will prove more accurate. Up to the time of the transit, the best methods pointed out the distance to be 92,350,000 miles.

When a young man encircles his partner's waist for dance, he will do wisely to keep his fingers still. Nothing aggravates a young lady more than to imagine you are trying to count the whale-bones in her dress.

Seventeen lawyers are engaged in a suit over the will of an Indianian, who boasted shortly before his death that he had got his affairs into such a shape that when he died the lawyers couldn't make a penny out of his estate.

An exchange observes that the ordinary howls of the average brakeman when nearing the stations are quite as unintelligible as the words uttered by a fashionable church choir.

It is difficult to understand why a wife never asks her husband "if the doors are all locked" until after he is snugly covered up in bed.

WASHINGTON LETTER.

WASHINGTON, D. C., Dec. 29th, 1879.

The splendid leadership of Senator Blaine is once more illustrated in the present political war in Maine. Had it not been for his resolute purpose to have fair play even from the rascals who had made their plan in advance to steal political power which they could not obtain at the polls, the saving of that great crime would have been hopeless. Now, to his genius and courage, there is a prospect of justice being done, and the Republicans holding the State. His friends take justifiable pride in pointing to this example as proof that Senator Blaine would make a noble Chief Magistrate of the nation.

The Democrats here are very sick of this Maine business, and Senators Eaton and Cockrell among others have advised Garcelon to back out of his illegal, and unjust position. With the singular fatality of Democrats with a little brief authority, however, it is likely that he will persist until forced to surrender to an outraged public opinion. The Democrats will go all lengths anywhere to capture the next Presidency. But they will be foiled.

General Grant had no reception on his arrival here. It is said some of his best friends advised him not to have any more public receptions, because they have been overdone, and give a chance for cheap men to make themselves prominent. The Washington *Chronicle* says plainly that they have hurt General Grant in the public view, and because the managers have been allowed to announce that they are in the interest of the Grant boom. Captain James B. Eads has returned home to plague the speculations who are trying to raise money to construct important canals across the Isthmus of Panama. His plan is to construct a Marrine railway across the Isthmus, and he says it ought to be an American Institution strictly. On all engineering subjects Captain Eads is reliable authority and his plan is likely to prevail in the end, because of its economy and the speed with which it can be put in operation.

There bids fair to be considerable discussion in Congress as to the rate of interest to be paid on the new bonds to be issued in place of those called in during the next fiscal year. Hon. Fernando Wood thinks they can be placed at a rate of interest as low as 3½ per cent, and says he can convince Secretary Sherman, who believes in a four per cent, bond, that it can be done.

Secretary Sherman has had a large experience as a financial manager, and his judgment and opinion should be fully considered by Congress before acting upon a matter so closely identified with our credit and interests abroad.

MAXWELL.

Major W. L. Ustick, well known on the coast, died at Eureka, on Tuesday last, from a disease contracted while on a prospecting expedition last May. At the breaking out of the war in 1861 he entered the army as Second Lieutenant in the Third Infantry, California Volunteers, of which General Connor was Colonel. He served under General Conner and participated in the Bear river fight under that officer. Subsequently he served on the staff of R. R. Robinson, Adjutant General of the State of California, and in the same capacity under General George S. Evans. Still later he served as Chief of Staff under Colonel Edward McGeary, commanding the Second California Cavalry and the District of California. He was promoted to the rank of Major before the close of the war. He was a member of the California Veteran Guard and of the Grand Army of the Republic.

SACRAMENTO BEE.—This truly enterprising journal has entered upon its forty-seventh volume. We are glad to note that it is prosperous and hold its way as one of the leading papers on the Pacific Coast. Its Christmas number was worthy of its publishers.

SACRAMENTO RECORD-UNION.—The New Year's number of this paper comes to us with the usual mass of information annually given to the public by its publication. It is a fine issue.

NEW TO-DAY.

ATTORNEY AND COUNSELLOR AT LAW

Practices in all the Courts of California and Nevada.

OFFICE—Rooms 1, 2, 3 and 4, Goodson's building, Upper Main street. ja10-tf

SALARIES AND FEES.

Senator Satterwhite has prepared a bill, regulating the salaries and fees of county officers. It classifies the counties as at present, with a reclassification after the next census. The terms of Supervisors are fixed at two years, to be elected on the first Tuesday of November, and take office on the first Monday in January following. In first class counties they are to be elected by districts, and in the second and third classes by the county at large. Their powers will be as now, except to make rules and regulations for local self-government, as provided in the new Constitution. This bill prohibits the incurring of any indebtedness unless a revenue is provided for it, without the consent of two thirds of the electors of the counties. Except Superior Judge, School Superintendent and Assessors, all county officers are to be chosen next Fall at the November election. Counties of the first-class are to have seven Supervisors; second-class, five; the third, three.

Townships are given one Justice of the Peace and one Constable. Except Surveyor, Coroner and Public Administrator, the officers are placed on salaries; the pay of the Superior Judge remains as at present. The salary of the District Attorney in first-class counties is fixed at $2,000; second, $1,800 and third at $1,500. In the first and second class counties they are allowed $900 for an assistant. Treasurers of the first-class are to receive $2,000, of the second, $1,500 and of the third $1,000—all with mileage. County Clerks of the first-class, are to receive a salary of $3,000; second, $2,500; those of the third, $2,000, the first-class being allowed deputies at not over $150 a month. County Clerks of the third class to be ex-officio Recorder and Auditor. Auditors of the first class to receive $1,800. Sheriffs of the first class $3,000, with $250 a month for deputies; second class $2,500, with $200 a month for deputies; third class $2,000, with $150 per month for deputies. Sheriffs of the third-class are to be ex-officio Tax Collectors, and are, as such, provided for in the fee bill. Tax Collectors, $2,400 and $1,800; Recorders $1,800 and $1,200; Assessors, $2,000, $1,500 and $1,000, with per centage for poll-taxes—deputies being allowed $1,800, $1,200 and $600. School Superintendents, $1,500, $1,200 and $800, with $100 for contingent expenses. Supervisors are to be paid $5 per day. This bill does not effect a joint city and county government.

The Fee bill is modeled on the fee rates of San Bernardino county, which are among the most moderate in the State. The county officers are required to keep an account of the fees and turn them into the county treasury, except in the case of the mileage and percentage of Assessors. Under the present Code Mono county is placed in the third-class, but which class it will now be placed in remains to be seen, but it will probably be ranked in the second class. We gather the above synopsis of Senator Satterwhite's bill from the S. F. *Chronicle*.

NEW TO-DAY.

Notice to Creditors.

ESTATE OF JOHN JOHNSON, DECEASED.

NOTICE is hereby given by the undersigned, Administrator of the Estate of John Johnson, deceased, to the Creditors of, and all persons having claims against the said deceased, to exhibit them with the necessary vouchers, within four months after the first publication of this notice to the said Administrator a Coleville, Antelope Valley, in the County of Mono, California.

ja10-td County Clerk.

PROBATE NOTICE.

IN THE SUPERIOR COURT, IN AND FOR the County of Mono, State of California.

NOTICE is hereby given that Sebastian Vurga having filed in this Court her petition, praying for Letters Testamentary of the Estate of Maria Ortega, deceased, the hearing of the same has been fixed by said Court for Monday, the 19th day of January, 1880, at 11 o'clock, in the forenoon of said day, at the Court Room thereof, at Bridgeport, in the County of Mono, and all persons interested in said estate are notified then and there to appear and show cause, if any there be, why the prayer of said petition should not be granted.

Dated January 6th, 1880.

D. JEFFREYS, Clerk.
T. A. STEPHENS, Attorney. ja10-td

Notice to Creditors of Insolvent.

IN THE SUPERIOR COURT OF THE COUNty of Mono, State of California.

Simon Marks vs. his Creditors.

Pursuant to an order of the Hon. R. M. Briggs, Judge of the said Superior Court, notice is hereby given to all the Creditors of the said Insolvent, Simon Marks, to be and appear before the said Judge, in open Court, at the Court Room of said Court, in the town of Bridgeport, in the County of Mono, on the 16th day of February, A. D. 1880, at 11 o'clock A. M. of that day, then and there to show cause, if any they can, why the prayer of said Insolvent should not be granted, and an assignment of his estate be made, and he be discharged from his debts and liabilities, in pursuance of the Statute in such case made and provided; and in the meantime all proceedings against said Insolvent be stayed.

Witness my hand and the seal of said Court, this Sixth day of January, A. D. 1880.

[L. S.] D. JEFFREYS,
ja10-4w County Clerk.

NEW TO-DAY.

CONSTABLE'S SALE.

BY VIRTUE OF AN EXECUTION ISSUED out of Justice Thos. Newman's Court, Bodie Township, County of Mono, State of California, duly attested 8th day of December, 1879, in the suit of Oliver Chayre against Santa Mina Mine, whereby I am commanded to make the sum of $46 00 damages in U. S. gold coin, and $5 10, in like gold coin, costs of suit, out of the property of the above named Santa Mina Mine, I have levied upon the following described property belonging to the Santa Mina Mine, to wit: The Santa Mina Mine, situated in Bodie Mining District, Mono county, California, on the northern slope of Bodie Bluff, bounded on the south by the Rough and Ready, on the east by the Vortex, on the west by the Beaconsfield, running 300 feet in a southeasterly, and 1200 feet in a northwesterly direction from the monument; and notice recorded in the Bodie Mining District Records, September 6th, 1878, in the Record Book F, page 96. Notice is hereby given that on

MONDAY, FEBRUARY 2, 1880,

between the hours of 9 A. M. and 5 P. M. to wit, At 2 o'clock P. M. of that day, in front of Justice Newman's office, I will sell at public sale, all the right, title and interest of the above named Santa Mina Mine in and to the above described property, or so much thereof as may be sufficient to satisfy said amount of $46 00 damages, and $5 10, costs of suit, together with all accruing costs, to the highest and best bidder, for cash in U. S. gold coin.

Dated Bodie, January 10, 1880.

A. MAESTRETTI,

BUILDERS OF STEAM MACHINERY IN all its branches, Steamboat, maship and land

ENGINES AND BOILERS.

High Pressure and Compound.

Ordinary Engines compounded when advisable.

Steam Boilers.—Particular attention given to the quality of the material and workmanship, and none but first-class work produced.

Water Pipe, of boiler and sheet iron of any size, made in suitable lengths for connecting together, or sheets rolled, punched and packed for shipment, ready to be riveted on the ground.

Hydraulic Riveting.—Boiler work and water pipe made by this establishment riveted by hydraulic riveting machinery, that quality of work being far superior to hand work.

Pump—For mining, of any capacity and of any style. Our style of direct acting compound engines, with double line of pumps, particularly recommended.

Direct Acting Engines for underground work, irrigation, or city water works purposes, built with the celebrated Dewey valve motion, superior to any other.

Mining Machinery—Quartz mills, pans, boilers, hoisting machinery, sinking hoisting engines, or other machinery required

9mis)

$300 A MONTH guaranteed. $12 a day at home made by the industrious. Capital not required; we will start you. Men, women, boys and girls make money faster at work for us than at anything else. The work is light and pleasant, and such as anyone can go right at. Those who are wise who see this notice will send us their addresses at once and see for themselves. Costly Outfit and terms free. Now is the time. Those already at work are laying up large sums of money. Address TRUE & CO., Augusta, Maine ly5

THE CHRONICLE.

BODIE, JANUARY 10, 1880.

County Official Press.

The CHRONICLE Office is on the second floor of "Goodson's Building," east side of Main street, between Standard Avenue and Green street.

JOB PRINTING.—Job printing of the finest descriptions will be furnished at this office at Sacramento prices.

LOCAL INTELLIGENCE.

WATER SUPPLY.—This week much energy has been displayed in the laying of the water pipe on Main street, the work having been prosecuted day and night. The pipe has been laid some distance above the Postoffice, and is being put down on lower Main street as far as the Bulwer Standard Mill. There will be 8 hydrants, 4 on each side of Main street. From these hydrants a stream can be thrown 100 feet high.

Two hose carts, with 750 feet of hose for each will be furnished by the Water Company, and companies will be immediately organized for each—one to be located down town and the other uptown. West & Bryant, with their usual liberality will donate the use of a lot in the thickly settled portion of the city for the use of the uptown company. The pipe has been laid at a sufficient depth to prevent the water freezing in the pipes, so our people may rest easy, that there will be no danger of having a failure in the water supply in case of a fire in the Winter season, from the freezing of the water in the pipes. The Water Company, which is composed of our most prominent merchants and property owners, are entitled to the thanks of our people for their energy in pushing this enterprise to an early completion.

COURT HOUSE.—Superior Judge R. M. Briggs issued an order to convene the Board of Supervisors to-day to act upon an order to furnish a suitable Court Room for the Superior Court. That the Court House is a disgrace to the county and a dangerous building cannot be denied. It is in contemplation to purchase Leavitt's Hotel. Now the *News* has an opportunity for a first-class howl

ACCIDENT.—On Sunday last, at William's Ranch, on the Carson and Bodie Road, twenty miles north of Bridgeport, L. M. Austin, a teamster, while walking alongside his team, slipped, and fell upon his face, and one wheel passed over his right arm, breaking it three inches below the elbow. He is at Bridgeport under charge of Dr. Sinclair. He was engaged in hauling lumber for Porter & Co.

ORIGINAL.—The *News* says: "Many of our people think Bodie mining district made into a county would settle the county seat question, and be of material benefit to Bodie." The luxury of a Court House, jail and a fresh batch of county officials for Bodie is a bright idea.

NOT SO.—Our evening cotemporary says that the "rules of the Superior Court were ordered to be printed at San Francisco." This is not so; they were sent to this office where the "best of job and book work is furnished at low rates." Our business men know this and favor us with orders.

MORTALITY REPORT.—In our last issue we published a list of the deaths in Bodie, during the year ending December 31st, 1879, comprising 114 in number of which 5 were suicides, 3 homicides and 15 accidents, leaving 83 from natural causes—an average of 7.33 per month.

BRIDGEPORT SCHOOL.—On Monday last this school opened, under the management of B. R. Foss, with an attendance of 47 pupils. Mr. Foss comes well recommended, having held for five years the position of Principal of the San Jose schools.

POSTOFFICE.—The following are the operations of the Bodie Postoffice, during the six months ending December 31st: Money Orders, issued $40,471 00; paid, $9,585 37; stamps sold, $3,165 90; letters registered, 1,106.

DEEDS.—During the year 1879, 615 real estate and 649 mining deeds were recorded in the County Clerk's office—a total of 1,264.

HOMESTEADS.—Forty-five homestead claims were recorded in the County Clerk's office during the year 1879.

LIENS.—Eighty-four liens were recorded in the County Clerk's office during the year 1879.

CIVIL ACTIONS.—During the year 1879, 156 civil actions were commenced in the District Court.

WASHINGTON'S BIRTH-DAY.—The Pacific Coast Pioneers will probably have a banquet on February 22.

MORTGAGES.—During the year 1879, 178 mortgages were recorded in the County Clerk's office.

SUPERIOR COURT.—On Monday afternoon last, Hon. R. M. Briggs, and the Bar met at the Court Room and interchanged views. The following committee on Rules was appointed: Reddy, Drake and Bennett. On Tuesday at 11 o'clock A. M., the Court formally opened, for business, and the following Rules adopted:

SUPERIOR COURT,
MONO COUNTY, CALIFORNIA.
Rules adopted January 5th, 1880.

RULE I.

There shall be twelve terms of this Court in each year, commencing on the first Monday of January, and on the first Monday of each month thereafter.

RULE II.

On the Saturday preceding the first Monday of each and every month, the Clerk of the Court shall place upon the Calendar all cases at issue, whether upon questions of law or fact, according to the date of the issue, and no other case or issue shall be placed on the Calendar or disposed of during the month, unless by consent of both parties.

RULE III.

On the first Monday of each and every month the Judge will proceed to call the Calendar provided for in Rule I, and fix the time of trial of all issues, whether of law or fact.

RULE IV.

In case the Attorneys for both parties are absent at the calling of the Calendar, the case shall be passed until the first Monday of the next month, but such cases may be taken up during the month by consent of both parties.

RULE V.

Upon the calling of each cause the Attorneys therein, or the Attorney for the party present, shall announce whether the same is to be tried by the Court, or a referee, or a jury, and the Clerk shall note the same accordingly, and in case a jury trial be not then demanded, it will be deemed a waiver of a right to a trial by jury.

RULE VI.

No Attorney will be received as surety on any bond, undertaking, or recognizance to be filed or entered into in any action or proceeding in this Court.

RULE VII.

In all cases of appeal from Justices' Court to this Court, where the papers on appeal have not been filed in this Court within ten (10) days after filing the undertaking on appeal, the appeal shall be dismissed on motion, without notice, upon filing a Certificate from the Justice's Court in which the action was tried, showing the date of the filing of the undertaking on appeal, and the Clerk shall certify such dismissal to the Justice Court from which such appeal was taken.

R. M. BRIGGS,
Superior Judge.

NEW LOCATIONS.—The following new locations have been recorded by District Recorder George Macartney:

Lightner—in west crossent 400 level, Red Cloud mine—J. L. Holland.

Tippecanoe—in west crossent, 250 level, Red Cloud mine—J. L. Holland.

Cross—discovered in the Flood & Hurley tunnel—P. Reddy.

Parham—in east crossent from Republic shaft—Wm. M. Stewart.

Crescent—on Silver Hill—Leo A. Scowden.

Holland—south line of Red Cloud mine, running east and west—J. L. Holland;

Blasdel—extension of the Holland—Col. S. W. Blasdel.

Relocation of West Point tunnel—west side of Bodie Hill—John Ryan.

Zanesville—a relocation of the Orphan Boy—Ben Dettmer.

Lowland Chief—west of Sigourney mine—Thomas Jones.

Governor Perkins No. 2—100x250 feet—bounded on the north by Governor Perkins—P. W. Mullally. David Ray and Ellis Corinson.

PIONEER'S BALL.—The first Annual Ball of the Pacific Coast Pioneers, on Thursday evening last, was well attended, and gave general satisfaction. The music, under the direction of A. Patrini was first-rate. Dancing commenced at 9½ o'clock and continued till five o'clock. During the evening J. N. Harrison sang "Not for Joe" which was warmly applauded. The hall was handsomely decorated.

BODIE RAILROAD.—The Carson *Tribune* says:

"We are reliably informed that the Directory of the Virginia and Truckee Railroad Company has decided to extend their line south, Bodiewards, some fifty miles, and doubtless in time may make a further advance to tap the rich country there awaiting development. Surveys will be made at once and the construction of the road will begin in early Spring. It will start from the Mound House."

DIVIDENDS.—The Standard Consolidated Company will pay its regular monthly dividend of 50 cents a share on Monday next, 12th instant, in San Francisco and New York.

On Monday next the Bodie Bank will also pay a dividend of two per cent. on its capital stock.

RIVALRY.—The competition among the Bodie dailies waxeth hot. One day this week the *News* kills off a man who was injured in a mine, and is now about well as ever; and this morning the *Press*, to be even with its cotemporary, we suppose, killed off a woman, who was alive when this was written.

BODIE GUARDS.—The Adjutant General has ordered an election of officers for the Bodie Guards, and appointed R. L. Peterson Judge of said election. Upon returns from Judge Peterson arms and equipments will be issued.

MORE SNOW.—About 4 o'clock yesterday afternoon a fierce snowstorm set in and continued till near morning, giving us over a foot of snow which makes the sleighing very fine again. To-day is very pleasant.

EARTHQUAKE.—On Tuesday morning last, at 9 40 A. M. a heavy earthquake shock occurred at Bridgeport.

THE BODIE MINES

TIOGA.
C. H. Golding Supt.

Shaft is down 735 feet, having been sunk and timbered 8 feet since last report. The vein in the bottom continues to improve, and we have been shown samples of ore taken out at this point, which show free gold in considerable quantities. The Syndicate drift is in 644 feet from the shaft, the face being in hard working ground. The east crosscut from the Ralston winze, on 620-level, has been advanced 15 feet, and the face is in more favorable vein matter. The Ralston winze is 108 feet below the 620 level, having been sunk 6 feet this week. The upraise from 520 foot fevel to the 320, on vein. No. 3, is up 57 feet, and the face is in good milling ore. Everything about the mine is working well.

MARYLAND CONSOLIDATED.
J. A. McPherson, Sup't.

During the past week have made in sinking the new double compartment shaft 24 feet. The whole bottom of the shaft in ledge matter. All the stopes on 258 foot level continue to look well. The face in drifts on 258 foot level in good ore. Working three shifts of 4 men each in sinking new shaft, with rapid progress being made. If the ground continues as at present the 500-level will be reached by the last of the month, when crosscutting will be made. Every thing below and above ground in this mine shows energetic, good and economical management.

MCLINTON.
Russell F. Lord, Sup't.

The south drift from the new shaft is in 45 feet, with no particular change in the ledge. On the 500-level the west crosscut has reached a distance of 245 feet. The character of the ground is porphyry, with stringers and bunches of quartz and is evidently near the Jayhawk ledge. On the 675-level the north drift has reached a distance of 675 feet, and the ledge is looking well. The water is handled very easily. Everything in and about the mine is working well.

BLACKHAWK.
S. B. Ferguson, Sup't.

Shaft down 55 feet, the rock is somewhat harder than it has been, but promises well, having more or less of a vein formation. Crosscutting still continues from the bottom of the 150 foot winze on the 320 level. On the east side of the winze everything looks very favorable. On the west side of the winze there has been no changes. Everything about the winze is running satisfactorily.

UNIVERSITY.
D. F. Moore, Sup't.

Shaft down 272 feet, the rock still hard, though filled with seams of fine quartz, which are no doubt feeders to the main ledge. The shaft may cut the west University ledge at an early day. Everything about the works is in first-class order, and working smoothly.

LAND PROTESTS.—In the matter of the application for Timber Land Patents, the following persons yesterday filed in the Bodie United States Land Office their protests:

Frank La Vine claims title to S. E. ¼ of N. E. ¼ and N. E. ¼ of S E. ¼ and S. E. ¼ of S. E. ¼ of Sec. 34 T. 4, N. 282 M. D. M. and protests W. T. C. Elliott and D. Virgil Goodson.

William Bush claims title to S. W. ¼ of N. W. ¼ and N. W. ¼ of S. W. ¼ and S. W ¼ of S. W. ¼ of Sec. 35, T. 4 N. R. 282 and protests against J. M. Knight and Joseph Alcarez.

William Tompson claims S. E. ¼ of N. W. ¼ and N. E. ¼ of S. W. ¼ and S. E. ¼ of S. W. ¼ of Sec, 35 T. 4 N. R. 282, and protests against J. M. Knight and Joseph Alcarez.

Louis A. La Grange claims S. W. ¼ of N. E. ¼ and N. W. ¼ of S. E. ¼ of Sec. 85 T. 4 N. R. 282 and protests William E. Reading and Thomas Buckley. R. S. Miner and T. P. Ryan are Attorneys for contestants.

NOT KNOWN.—It has not been ascertained who are entitled to the prizes offered by the Pacific Coast Pioneers to the ladies selling the most tickets for the Ball, and probably will not be until Monday or Tuesday. However, they are likely to be awarded to Lotta Summers, May Temple and Clara Penrose.

Frank P. Thompson, the retiring Superintendent of the State Printing Office, was, Saturday last, presented with a handsome gold watch and chain, and a solitaire diamond collar button by the employes of the State Printing Office.

BULLION.—On Monday last the Bodie Company shipped bars No. 147 and 148, valued at $13,255 89; and the Standard Company bar No: 179, valued at $18,124 69. Yesterday the Noonday shipped two bars, weighing 94 lbs.

It seems to be settled that John S. Morton, son of the late Senator Morton, will be appointed Collector at San Francisco.

Madame Tourtelott leads in the Sacramento pedestrian match now in progress.

Representative Page introduced in the House a bill to restrict the immigration of Chinese.

Luke Pryor has been appointed U. S. Senator from Alabama.

Attempted Murder.

About midnight on Wednesday Mrs. Martin, who lives on lower Main street, opposite the Esmeralda Brewery, was struck on the head and had her skull fractured by a stick of stove wood in the hands of a man named Nicholas Meidorfski, a Russian. The deed was witnessed by a teamster known as "Big Dick," who gave such information to Constable Maestretti as to warrant him in arresting a man named Juan Brusell as an accessory to the deed. By going judiciously at his work, Maestretti wormed the information out of Brusell that he had given Meidorfski five dollars to kill Mrs. Martin. Maestrett invoked the aid of his deputy H. Hamilton, and officer Joseph Farnsworth, to find the whereabouts of Meidorfski, and last night, in the storm, those officers scoured the hill near the Noonday in quest of the cabin where he was said to hold forth. In the meantime Maestretti wormed further information out of Brusell and found that the guilty party lodged in a house on Mill street, adjoining Kingsley's stable, and between 10 and 11 o'clock he repaired to the house in question and with a lantern in one hand and revolver in the other burst in the front door and entering, burst open the door of the bedroom, and entered. Meidorfski was in bed and rose on end, but Maestretti had the drop on him with his pistol and he surrendered without any resistance. He confessed that Brusell had given him $5 to kill Mrs. Martin, and that he was half drunk when he accepted the offer. Brusell and Meidorfski are in close confinement in our jail and are kept separate. Mrs. Martin is not dead, as was reported in a morning paper, and this afternoon we were informed that she was improving, and there were strong hopes of her recovering. This morning there was strong talk about town that the "601" would be around in case of the death of their intended victim. Too much credit cannot be given Constable Maestretti and officers Hamilton and Farnsworth for the able manner in which they worked up this case, and ferrited out the scoundrels who conceived and executed the deed.

The piece of wood used is in possession of Justice Newman, and is a formidable weapon in strong hands, being about 15 inches long, 4 inches in diameter, and with a large knot in it. The would-be murderer has gone by the name of Nick Meadows, but naturalization papers found on him show his name to be Nicholas Meidorfski.

SUPERIOR COURT SEAL.—We are in receipt of an advertisement with the Superior Court Seal affixed thereto. It is handsomely and sharply cut; represents a miner, standing at the mouth of a tunnel with a car, who has "struck it rich." He is examining a specimen, and his eyes stick out like pinheads. To his left is one of the bay windows of the Clarendon or Occidental Hotels—we suppose.

BODIE SCHOOL.—On Monday last this school opened with 140 pupils in attendance. It is under charge of Miss Ella Said, Principal; and Miss Clemina Whitcomb, First Assistant; and Miss Rosa Summers, Second Assistant.

THE MAILS.—On account of snow slides on the Central Pacific, yesterday's mail failed to connect, but it came today.

THANKS.—We acknowledge receipt of a handsome picture of the San Francisco *Chronicle* Building. It is 18 by 24 inches, and tinted.

BODIE MINSTRELS.—This troupe under the management of Wm. Cuddy, performed last evening, and will this evening, at Aurora.

The Chinese, who sometime since took a lively interest in stocks and were frequently to be seen laboriously spelling out the reports of sales, comes no more to these haunts. One of them who was much interested in the business a few weeks ago was yesterday asked how he was making it. "No makee now, bloker man catchee me—catchee mud, mud, mud, John all 'e time. You sabe mud? Toona mucka hi lo?"—Virginia *Enterprise*.

The Mexican Government has offered a reward of $100 for the scalp of every Indian killed in the State of Chihuahua. How many scalps would the Bodie sharpshooters get away with?

LEGISLATIVE.—The Legislature organized at Sacramento on Monday last without any "fuss or feathers," the Republicans electing the officers of both branches.

Census General Walker is convinced that we are not over 48,000,000 in population. This will not be a very heavy increase since the last census.

It was colder in California on December 24 h than at any time during the past nineteen years.

The Legislative caucus nominated General James Garfield for United States Senator from Ohio.

Emperor Norton died suddenly in San Francisco on Thursday.

The Ute Indians are now en route to Washington under military escort.

FIRE CONFECTIONARY.—Mrs. Swan has opened a confectionary store in Abbot's building, on Main street, between Standard Avenue and Mill street. She intends to keep a fresh supply at all times and at reasonable prices.

RELIGIOUS.—Rev. G. B Hinkle will hold divine services in Odd Fellows' Hall, over Page, Wheaton & Co's. store to morrow at 11 o'clock A. M. and 7 o'clock P. M. Sabbath School at 2 P. M. All are cordially invited to attend.

He did not wish to go to the hospital and who blames him? To the sensitive mind, the very idea of being a subject of the coroner's charity, is repulsive.—No my dear friend, said the stranger mildly, yet decidedly, there is no necessity that I should go to the hospital. I will hire a comfortable room, and a few packages of Frese's Hamburg Tea will put me all to rights. It will strengthen my stomach, restore my appetite, and this continual drowsiness and nervous depression, will leave me, I have been attending too closely to business.

LEGISLATIVE.—The Legislature organized on Tuesday by the election of Senator George F. Baker, of Santa Clara, as President pro tem of the Senate, and Marcus D. Boruck, of San Francisco, Secretary.

The Assembly organized by the election of J. F. Cowdery, of San Francisco, Speaker, and Thomas Frazer, of El Dorado, Speaker pro tem, and F. U. Gunn, of Santa Clara, Chief Clerk and John G. Howell, of Alameda, Assistant Clerk.

The bill of Cox of New York concerning immigrants came up for consideration in the House on Tuesday, when a point of order being made, it was referred to the Committee of the Whole, and Page secured the right to offer an amendment to the bill when it shall come up for consideration, and his amendment will if adopted, prohibit the landing of more than 15 Chinese from any vessel on any one voyage. Page introduced in the House on Tuesday the original Sargent bill, limiting the immigration of Chinese to 10 on any single vessel.

Advices from Pennsylvania indicate that Grant will be nearly the unanimous choice of the Republican Convention, which meets on the 4th of February. The unanimous election of Geo. H. Sharpe to the Speakership of the New York Assembly is regarded as additional evidence that the Republicans of that State will send a Grant delegation to the National Convention. Sharpe was a United Marshal under Grant.

In view of the probable retirement of our Minister to China, George F. Seward, our California deligation in Congress waited on the President a few days since and recommended the appointment of Hon. John F. Swift, of San Francisco, as Minister to China. The appointment of Mr. Swift would undoubtedly be acceptable to the Republicans of the Pacific States, and would be a very creditable one, withal.

In New York city, for 1879, 460 failures were reported, with total liabilities of $16,388,932, and assets at $5,160,033. In 1878 there were 917 failures, with liabilities amounting to $6,000,000 in round numbers, with assets of $18,000,000, a larger amount than for any other year since the panic of 1873.

WILL THEY.—Now that the Democracy have stolen the State Government of Maine, will the Democratic press let up on that 7x8 steal that they have had so much to say about?

The funeral of Count Joannes took place in New York on Monday last.

THE CHRONICLE.

BODIE, JANUARY 10, 1880.

NABOBS OF THE PRESS.

[Burlington, *Hawkeye*.]

"Editors are usually wealthy," the man with the simple case remarked.

"Yes," I said, "they are familiar with all the slang and business phrases of the money market; they write about millions as ordinary men talk about dollars; they know how to pay the national debt; they build railroads; they organize mining and magnificent transportation companies with fabulous capital; they declare war without consulting the Rothschilds, and if all the banks in America were to fail to-morrow, the editors wouldn't be a cent poorer than they are to day. Yes they are rich. They associate with the moneyed classes, they sit down at table with kings, and sometimes, in happier, luckier moments, with cows; if you want to borrow money, go to the editor, he will turn to his advertising columns and tell you where you can borrow it. If you have money to loan, rather than see you suffer, he will borrow it of you himself. Rich? He knows the secrets of the moneyed rings; he divulges the plans and schemes of the heavy operators to the people; he roars himself louder than the bulls, and growls among the bears; his voice is heard in the temples of the money-changers, asking for money; he warbles his little roundelay out on the curbstone, in a melancholy minor key, when he doesn't get it. Oh, yes, editors are rich! When you want to spend all the money you have in this wide, wide world, go to your lawyer; when you want something done for nothing, hie you to your newspaper office. Then when you want to send some man to Congress, send your lawyer, because you can get along without him."

I paused, and a profound, impressive silence filled the air like a dream of peace. I looked. It was asleep.

EXCUSES AND INVITATIONS.

Some curious things have been written in response to invitations, or conveying the invitations themselves. A man of letters, traveling in the United States, responded to a literary lady's invitation "to meet some minds at tea" at her house, by expressing his sorrow at being prevented from doing so through having already promised to meet some stomachs at dinner. Whether his excuse shocked American modesty, we do not know; he would have been set down as a very rude man by the English farmer's daughter who, in acknowledging a feminine friend's invitation to go with her to the races, wrote on behalf of herself and her sister: "The energy of the races prompts me to assure you that my request is forbidden, the idea of which I had awkwardly nourished, notwithstanding my propensity to reserve. Mr. T. will be there. Let me with confidence assure you that him and brothers will be very happy to meet you and brothers. We girls cannot go for, reasons. The attention of the cows claim our assistance in the evening."—An impecunious nobleman once declined in the following terms: I am in bed. A rascally creditor has had everything I possess taken from me. I must remain in bed till my lawyer comes as I have not a coat to put on. This is reason, dear Lady Cork, I cannot dine with you." An all-sufficient one we should judge.

PRINTING PRESS MARVELS—Some people are puzzled how a sheet of paper can be made unbroken seven miles long.—But what can exceed the ingenuity that constructs a machine that with the push of a lever takes the snowy paper into his ponderous jaws, and, with the speed of an express train, imprints upon it even the faintest hair-line of the smallest types divides it uniformly and accurately into pages, places it in book form, glueing the backs, cuts the edges, and then folds those pages as evenly and smoothly as a girl would fold her first love letter, and delivers the perfect newspaper, six, seven, eight in one second.

The fumes from the smelting of lead ore are now passed through a very long line of pipes and woolen bags, and condensed into lead again as steam is converted into water. The lead thus obtained is a powder of exceeding fineness, which makes an excellent blue paint. An intense heat melts this powder, and by a similar process of catching the fumes, a white powder is obtained, which makes a superior white paint.

"I don't see how there ever came to be so many words in the world?" exclaimed a girl who was studying her spelling lesson. "Why, sis," said her brother, "they come through folks quarreling. Then, you know, one word always brings on another.

A Court has decided that if a woman lends money to her husband she cannot get it back. This is state news to a great many wives, who arrived at that decision long ago without the aid of a court.

It is astonishing what whopping lies young folks will give and take during courtship. The trouble with a good many marriages is that the parties leave off lying when they enter matrimony.

Providence paper explains why Rhode Island has two capitals. They don't like to spell it rhode Island or Rhode Island.

There is nothing so effective in bringing a man up to the scratch as a healthy and high-spirited flea.

TREATMENT OF THE HAIR.—How to preserve the hair is a subject which seems to interest almost everybody, if we may judge from the frequent inquiries from every direction which come to this office. One wishes to know what will prevent baldness, another how to preserve their hair from turning gray, another how to eradicate dandruff, etc. Now, it is a delicate matter to recommend any special treatment, but Professor Wilson of England, who is deemed high authority on the hair, condemns washing it, and advises instead thorough brushing. This promotes circulation, removes scurf, and is in all respects, he says, better than water. Cutting the hair does not, as thought commonly, promote its growth. Most of the specifics recommended for baldness, not excepting petroleum, are mere stimulants, and are seldom or never permanently successful. Some of them give rise to congestion of the scalp. When a stimulant is desirable, ammonia is the best. It is safe. For falling out of the hair, Dr. Wilson prescribes a lotion composed of water of ammonia, almond oil and chloroform, one part each, diluted with five parts alcohol or spirits of rosemary, the whole made fragrant with a dram of oil of lemon. Dab it on the skin, after thorough friction with the hair brush. It may be used sparingly or abundantly, daily or otherwise. For a cooling lotion, one made of two drams of borax and glycerine to eight ounces of distilled water is effective, allaying dryness, subduing irritability and removing dandruff. Both baldness and grayness depend on defective powers of the scalp skin, and are to be treated alike. What is needed is moderate stimulations, without any irritation. The following is good: Rub into the bare places daily, or even twice a day, a liniment of camphor, ammonia, chloroform and aconite, equal parts each. The friction should be gentle.—*Exchange.*

A little five year-old boy, who had seen a peacock for the first time, ran in to the house exclaiming to his sister:—'Oh, Lizzie, I've seen a great monstiferous tail walking around with a hen tied to it."

An exchange, telling of a fire, says a man "jumped from a window in his night-dress." What the mischief did he have a window in his night-dress for? It must have been an awful nuisance.

A thrifty father took his boy to a doctor. "If you can cure him for less than the funeral expenses," said he, "go ahead; but if you can't, sonny will have to take the chances."

A woman's chiropodist at Brighton, England, has placed this legend over his door: "Hell hath no fury, like a woman's corn."

Application to Purchase Timber Land.

No. 75.

UNITED STATES LAND OFFICE,
Bodie, Cal., Dec. 16, 1879.

NOTICE IS HEREBY GIVEN THAT whereas John W. Bagby, a citizen of the United States, over the age of twenty-one years, has made application under the Act of Congress entitled "An Act for the sale of timber lands in the States of California, Oregon, Nevada, and in Washington Territory," approved June 3, 1878, to purchase at this office S ½ of N E ¼ of Sec. 13, and N ½ of N E ¼ of Section 24, Township 4, N R 26 E, M D M, containing 160 acres, claiming said land to be valuable chiefly for its timber. And the said applicant having made and filed in this office the affidavit as to the character of said land as required by said Act.

Now, therefore, any and all persons claiming said above described land, or any part thereof adversely to the claim of the applicant therein, are required to file their adverse claims with the Register of the United States Land Office, at Bodie, State of California, during the sixty days publication hereof, or they will be barred by virtue of the provisions of said Act.

MEDICAL.

TO THE UNFORTUNATE.

Dr. J. F. Gibbons

DISPENSARY,

623 KEARNY ST., corner of Commercial, San Francisco. Established in 1854, for the treatment of Sexual and Seminal Diseases, such as Generalized Chronic Sicknesses, Syphilis, in all its forms, Seminal Weakness, Impotency, night losses by dreams, pimples on the face and loss of manhood can positively be cured. The sick and afflicted should not fail to call on him. The doctor has traveled extensively in Europe, and inspected thoroughly the various hospitals there, obtaining a great deal of valuable information, which he is competent to impart to those in need of his services. DR. GIBBONS will make no charge unless he effects a cure. Persons at a distance MAY BE CURED AT HOME. All communications strictly confidential. You see no one but the Doctor. Send ten dollars for a package of medicine. Persons writing to the Doctor will please state the name of the paper they see this advertisement in. Charges reasonable. Call or write. Address DR. J. GIBBONS, Box 1,957, San Francisco, ap12-1y

Send ten dollars for a package of medicine.

DR. SPINNEY

No. 11 Kearny Street,

SAN FRANCISCO.

Treats all Chronic and Special Diseases.

YOUNG MEN

WHO MAY BE SUFFERING from the effects of youthful follies or indiscretion, will do well to avail themselves of this, the greatest boon ever laid at the altar of suffering humanity. DR. SPINNEY will guarantee to forfeit $500 for every case of Seminal weakness or private disease of any kind or character which he undertakes and fails to cure.

MIDDLE-AGED MEN.

There are many at the age of thirty to sixty who are troubled with the frequent evacuation of the bladder, often accompanied by a slight smarting or burning sensation, and a weakening of the system in a manner the patient can not account for. On examining the urinary deposits a ropy sediment will often be found and sometimes small particles of albumen will appear, or the color will be of a thin milkish hue, again changing to a dark and torpid appearance. There are many men who die of this difficulty ignorant of the cause, which is the second stage of seminal weakness. Dr. S. will guarantee a perfect cure in all such cases, and a healthy restoration of the genito-urinary organs.

OFFICE HOURS—10 to 4 and 6 to 8. Sunday from 10 to 11 A. M. Consultation free. Thorough examination and advice, $5.
